Title

\author{text} Author of document. \title{text} Title of document.

\date{text} Date.

These commands go before \begin{document}. The declaration \maketitle goes at the top of the document.

Miscellaneous

\pagestyle{empty} Empty header, footer and no page numbers.

Document structure

\subsection{title}

Section commands can be followed with an *, like \section*{title}, to supress heading numbers.

\setcounter{secnumdepth} $\{x\}$ supresses heading numbers of depth > x, where chapter has depth 0.

Text environments

\begin{comment} Comment block (not printed). \begin{autor} Indented quotation block.

\begin{quotation} Like quote with indented paragraphs.

\begin{verse} Ouotation block for verse.

Lists

\begin{enumerate} Numbered list. \begin{itemize} Bulleted list. \begin{description} Description list. \item text Add an item.

 $\forall x \in [x] \ text$ Use x instead of normal bullet or number.

Required for descriptions.

References

 $\verb|\label| \{ marker \} \qquad \text{Set a marker for cross-reference, often of the}$

form \label{sec:item}.

\ref{marker} Give section/body number of marker.

\pageref{marker} Give page number of marker. \footnote{text} Print footnote at bottom of page.

Floating bodies

\begin{table} [place] Add numbered table.
\begin{figure} [place] Add numbered figure.
\begin{equation} [place] Add numbered equation.
\caption{text} Caption for the body.

The place is a list valid placements for the body. t=top, h=here, b=bottom, p=separate page, !=place even if ugly. Captions and label markers should be within the environment.

The command (tttt) form handles spacing better than the declaration (tttt) form.

Font size

These are declarations and should be used in the form $\{\small ... \}$, or without braces to affect the entire document.

Verbatim text

 $\label{thm:locality:continuous} $$ \operatorname{Verbatim} \ \operatorname{Verbatim} \ \operatorname{Spaces} \ \operatorname{are} \ \operatorname{shown} \ \operatorname{as} \ \sqcup .$

\verb!text! Text between the delimiting characters (in

this case '!') is verbatim.
